Applicant's Signature: _____ Date: _____

Submittal Requirements:

FOR ALL PROPOSALS SUBMIT DETAILED SITE PLAN, DRAWN TO SCALE, SHOWING THE FOLLOWING:

- Property boundary lines of subject property and those in the immediate vicinity
- Appropriate location of all floodplain boundaries
- Location of existing improvements, including driveways, roads, culverts, bridges, buildings, wells, septic systems, etc.
- Location of physical features in the vicinity, including ponds, swales, streams, irrigation systems
- Location of all fill that will be stored in the floodplain, and statement of the amount of fill

In addition, for a house show:

- The existing ground elevation and calculated height of the base flood elevation
- Calculations for the amount of fill and specifications for fill material (type, size, etc.)

In addition to all the above, for other buildings show:

- A drawing of building
- A description of flood-proofing plan

In addition, for bank stabilization, submit:

- A description of existing conditions
- A historical trend of river movement, if any
- Description of the problem and objectives
- Description of alternatives and why they were rejected
- Base flood elevation and bank full elevation
- A longitudinal profile of the river surface and bed
- A plan view on aerial photo of project area
- Calculations project will not raise BFE more than 6 inches
- A description of project implementation, including phases, sediment control, weed control, cleanup, etc.

For a bridge submit:

- Drawings and specifications for the bridge certified by engineer
- Calculations for amount of fill
- A cross section at bridge location showing existing conditions and BFE

Once the final application is received, it will be reviewed to make sure the information is sufficient. If it is not, you will receive a letter that explains the deficiencies.
